# INTRO TO ASIAN AMERICAN STUDIES

---

No one is born "Asian American." This course will help unpack how, and why, Asian Americans constructed that term at the height of the civil rights movement. It will also examine the different factors and conceptions of social justice that have driven its evolution. In addition, it will examine how definitions of civil liberties, legal citizenship, and media-driven stereotypes have prescribed and often limited the opportunities of Asian Americans in the past.

Dr. Orquiza | MWF 12:30-1:20
